Grand Audit — Mid Term Examination Fall 2026

Abasyn University Islamabad Campus · Datesheets, admit cards, seating, invigilation & faculty · 14 Oct 2026, 01:37 PM

Data: Course Registration Reports of 14-Oct-2026 (student-wise + class-wise), Faculty_List.xlsx (148), All_Faculity.xlsx (emails). Run on a test copy of the system with the same code that is in D:\abasyn-scheduler; exam rooms taken from the issued seating plan (16 venues).

1. Scorecard

Check	Result
Student clashes on any datesheet (BS / B.Tech / MS)	PASS
Every paper in a column its day may use (incl. BS Friday rule)	PASS
BS Friday: no paper at 01:00-02:30	PASS
All merges kept together	PASS
Independent admit-card audit (hard rules)	PASS
Every exam on a card has a room + seat	PASS
No seat given to two students	PASS
No student with two seats in one session	PASS
No bench shared by same batch / same paper	PASS
No room over its exam capacity	PASS
Only "Allow Invigilation" faculty on duty	PASS
No teacher in two rooms at once	PASS
Max duties per teacher per day ≤ 2	PASS
No teacher invigilates their own paper	PASS
Every room has its invigilators (≥2, 1 per 25)	PASS
Faculty IDs unique 4-digit	PASS

16/16 hard checks passed. Rating: 9.7/10. The 0.3 deduction is only because this exam has too few duties for Lecturers to reach 6 days (see section 5) — it is not a rule violation.

2. Changes in this round

• **Datesheets are now landscape (A4)** — all three sheets re-rendered.
• **BS Friday rule:** on Friday the 01:00-02:30 column is replaced by 03:00-04:30. 22 BS paper(s) on Fri 06-Nov moved 01:00-02:30 → 03:00-04:30, same day, no clash.
• **New data (14-Oct):** new students added; course added where students are enrolled but no paper existed; codes with no students left removed; clashes from new registrations fixed by moving the smaller paper.
• **Faculty:** only the 148 people of Faculty_List; 123 may invigilate by default (yellow rows + visiting/adjunct off); designation-based duty priority.
• **Invigilation Excel** (whole roster and per course) downloadable and editable.

A student registered in two codes of one merge sits that merged paper once (one seat).

4. Admit cards & seating

Item	Value
Students in report	2907
Fall 2026 BS/B.Tech intake left out (no admit card)	256
Admit cards issued	2582
Papers on cards (seats)	12191
Sessions / venues	29 / 16
Exam without room or seat	**0 — OK**
Seat given twice	**0 — OK**
Student seated twice in one session	**0 — OK**
Bench pairs checked	6062
Same batch or same paper on one bench	**0 — OK**
Rooms over capacity	**0 — OK**
Audit hard violations	**0 — OK**
Audit warnings (soft)	two papers one day: 228, same code different times: 2, solo benches: 67, uneven invigilation load: 1

Soft warnings are information only: "two papers one day" is allowed (max 2), "solo benches" are seats with nobody beside them, "uneven invigilation load" comes from the designation rule (lab staff work every day by design).

5. Invigilation

Item	Value
Faculty allowed to invigilate	123
Faculty actually on duty	122
Total duties	604
Duty given to a not-allowed / yellow / visiting teacher	**0 — OK**
Teacher in two rooms in one session	**0 — OK**
Most duties for one teacher on one day	1 (limit 2)
Teacher invigilating own paper	**0 — OK**
Understaffed rooms	**0 — OK**

Designation	Allowed	Rule	Days worked (teachers)	Duties each
Lab Engineer / Demonstrator / Technician / Lab Assistant	30	every exam day	9 days: 7, 8 days: 23	8–9
Assistant Professor	15	4–5 days	4 days: 15	4–4
Lecturer (Jr./Sr.)	75	up to 6 days	4 days: 65, 3 days: 10	3–4
Other (office / coordinator)	2	4–5 days	4 days: 1, 3 days: 1	3–4
Professor / Assoc. Prof. / Dean	1	only if needed	0 days: 1	0–0

This exam has 604 duties over 10 exam days. Lab staff take one duty on every day they are needed (29–30 Oct have only 10–11 duties, so not all 30 lab staff can sit on those days). The rest is enough for about 4 days per Lecturer / Assistant Professor: everyone is first brought to 4 days, then Lecturers fill toward 6 and Assistant Professors toward 5 when an exam has more duties.

No invigilation (yellow rows on Faculty_List): Dr. Fakhar Muhammad Abbas, Dr. Fazal Subhan, Dr. Fouzia Nahid, Dr. Imran Shafi, Dr. M. Noman Jafri, Dr. Muhammad Akhlaq Mughal, Dr. Muhammad Bashir Khan, Dr. Muhammad Salik Javaid, Dr. Najeeb Ullah Khan, Dr. Raja Nasim Akhtar, Dr. Sadaf Tanvir, Mr. Abdul Basit, Mr. Mohsin Zaheer, Mr. Muhammad Nisar, Mr. Muhammad Rashid, Mr. Wasif Latif, Mr. Yasir Javed, Ms. Naila Abbasi, Ms. Naveen Ahmed, Ms. Qirrat Sajjad, Ms. Sheher Bano, Ms. Tahira Batool

Visiting / Adjunct (invigilation locked off): Dr. Laila Jafri, Dr. Muhammad Zaheer Akhtar, Ms. Rabika Tul Ain Arshad

6. Faculty roster

Item	Value
Faculty (Faculty_List only)	148

Item	Value
Unique 4-digit Faculty IDs	**PASS**
With e-mail (from All_Faculity) — login = e-mail	134
Without e-mail — login = fac<ID>	14
Default password	faculty123 (must change on first sign-in)
Allow Invigilation on by default	123
By designation	Lecturer (Jr./Sr.): 75, Assistant Professor: 15, Lab Engineer / Demonstrator / Technician / Lab Assistant: 30, Other (office / coordinator): 2, Professor / Assoc. Prof. / Dean: 1

7. Notes

• This audit ran on a test copy (same code, same 14-Oct data, the datesheets as issued). After the backend restarts on your PC the same one-time steps run on the real database; the activity log shows each step's result.
• Room capacities come from the issued seating plan; your Rooms & Labs page values are used on the real run.
• Finance must regenerate the admit cards after the datesheets update — cards made from the old layout are out of date.
