Course Sections — Exam Audit

Mid Term Examination Fall 2026 · class-wise report of 14-Oct-2026 · admit-card batch of 14-Oct-2026 7:47 PM · 15 Oct 2026

What changed. Sections of a course are no longer merged. All sections still write the same paper at the same date and time, but now: (1) in the hall section A is seated first, then B, then C; (2) every section has its own Identification Sheet (the Section column is filled in); (3) every section gets its own question-paper envelope tag with that section's teacher and student count — even when one teacher teaches all sections; (4) the admit card and seating plan show the section (e.g. "PD302-A"). Only students of the same course swapped seats — rooms, benches and every other paper stay where they were; no bench has the same paper or the same batch twice; invigilators unchanged. The issued batch is re-printed automatically when the backend restarts.

How students are put in sections. The registration report does not say which section a student is in. Sections are therefore filled evenly with whole batches kept together (e.g. CS210: BS CS Fall 2025 → A, BS SE Fall 2025 → B, BS AI Fall 2025 → C) and reg-number order where one batch has to be split (e.g. Pharm-D Fall 2024 in PD302 A/B). If the department has the real section lists, they can replace this split.

Summary

Item	Count
Courses with more than one section (class-wise report)	60 courses · 131 sections
…of these with a paper in this exam	51 courses · 111 sections · 3688 student-papers
…without a paper (no students / no-exam / not on datesheet)	CS499, DP437, DP449, MT110, PD1001, PD1002, PD1003, PD1004, SS103
Courses with ONE section only	480 (395 have a paper in this exam)
