Course Sections — Exam Audit (15 Oct data)

Mid Term Examination Fall 2026 · Course Registration Report 15-10-26 + ERP class list (odoocms.class) · 15 Oct 2026

Rule. Only the sections written in the ERP class list are used — none are invented, and a course with one written section is never split. All sections of a course write the same paper at the same date and time, but in the hall section A is seated first, then B, then C; each section has its own Identification Sheet and its own paper tag (per room) with that section's teacher; the admit card and seating plan show e.g. "PD301-A".

Who goes in which section. The class list names each section's program batch (e.g. CS313-A = BSCS-Fall 24, CS313-B = BSSE-Fall 24). A student sits with the section of his own batch. Where two sections have the same batch (e.g. PD301 A and B = Pharm-D Fall 24) they are filled in reg-no order up to the class list's enrollment (A first, then B). Students of a batch the class list does not name (repeaters, other programs) go together, as a whole batch, into the section with the most room.

Summary

Item	Count
Courses with more than one section	52 courses · 114 sections · 3986 registered students
…with a paper in this exam	50 courses · 109 sections
…without a paper (no-exam / clinical / not on a datesheet)	DP449, MT110
Courses with ONE section only (students registered)	429 (397 have a paper in this exam)
